

Homework Week 9 – Problem 2 Zero Duplicates (AIPO 2012)

Write a program that will read in a list of numbers and will then print out the same list except numbers that have already been printed will be printed as a zero instead.

Example:

Input: 1 2 2 3 3 4 5 5 3 2 6 Output: 1 2 0 3 0 4 5 0 0 0 6
